

J&S HOUSEHOLD PRODUCTS CO.,LIMITED

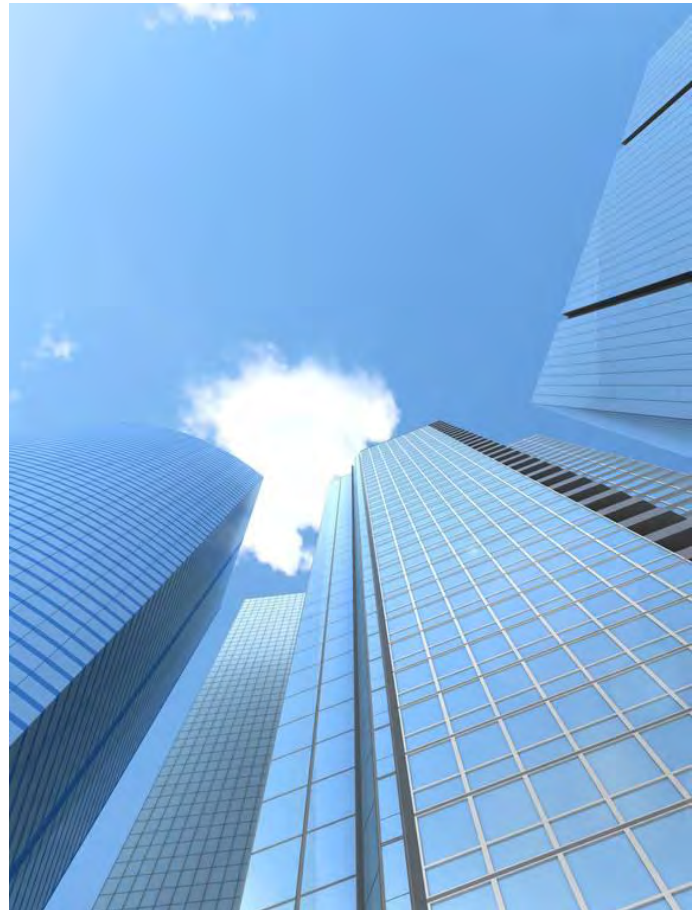

A company specializing in cabinet design, R&D, production

About us

JS HOUSEHOLD started development in 2003 and has now developed into one of the leading kitchen manufacturers in Guangdong Province. Covering an area of about 10,000 square meters, the monthly output can reach 40,000 square meters of panels and about 25,000 sets of standard cabinets.

Over the years, the company aims to further expand its production capacity through funds, enhance its global brand awareness and Enhance its informationization level. JS's passion for perfection and its passion for personalized kitchens and lifestyles continue to drive.

For many years, JS has been working tirelessly to expand our international market.

JS has the world's leading HOMAG woodworking production line. JS's production lines and processes are the leading equipment and technology of the era. JS uses E1 or CARB-compliant panels as raw materials. In addition, we also purchased other necessary raw materials from leading Chinese brands, such as particleboard, MDF, and edge banding. If you want more details, please contact us and we will contact you within 2 working days.

✓ Wood veneer door panel composite MDF with solid veneer or tech veneer, Generally, the surface of the solid wood is bumped and painted in the production to maintain the original wood color and beautiful shape. Open painting to guarantee the texture of the solid wood, and the closed painting will make the surface smoother. This can ensure the special visual effect of solid wood, and the combination of the frame and the core board can also ensure the strength of the door panel.
